

KITCHEN FAN BOX VENTILATION GROUND LEVEL INSTALL OF TWO STOREY PROPERTY

RHBOXWHT-90-TW

PRODUCT DESCRIPTION

Provide kitchen fan box mechanical extract ventilation to exterior wall. Dimensions 907L x 310H x 410D. The fan box is fitted with a centrifugal fan and rangehood filter that is suitable for the filtering of fat, grease and the extraction of steam or odours when cooking. The filter is removable for easy cleaning or replacement.

APPLICATIONS

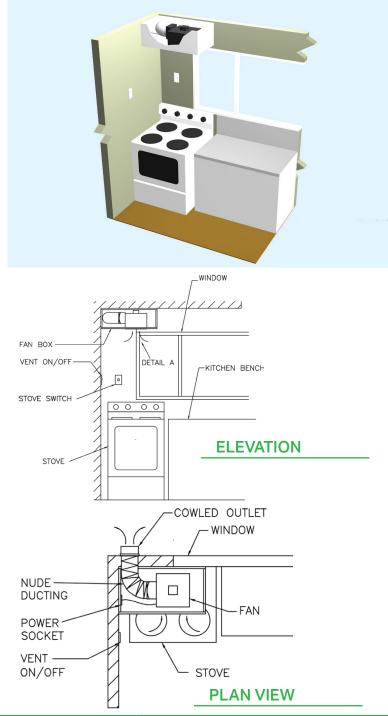

*This system is suitable, but not limited to the following areas:

The Fan Box is an alternative to a rangehood, where the procurement item RH-CANWHT-60-TR Rangehood or a Ceiling Filter Box (RH-FILPAN-TR) cannot be installed in situations such as:

- When a window is directly behind the stove in the ground level of a two level property. The wall space must be less than 497mm which is the standard space for a rangehood installation.
- Can be used in single level installations when no other system is suitable.
- · Vents to exterior wall using 150mm centrifugal fan.
